Challenging Codes: Collective Action in the Information Age (Cambridge Cultural Social Studies)

Alberto Melucci

Alberto Melucci brings an original perspective to research on collective action, emphasizing the role of culture and making telling connections with the experience of the individual in postmodern society. The focus is on the role of information in a world both fragmented and globalized, and topics addressed include political conflict, feminism, ecology, identity politics, power and inequality. The book builds on the author's *Nomads of the Present* (1989), and is a companion volume to *The Playing Self* (CUP, 1996).
