Handbook of Strategy and Management

Handbook of Strategy and Management

Presenting a major retrospective and prospective overview of strategy, this **Handbook** is an important benchmark volume for management scholars worldwide. The **Handbook** frames, assesses and synthesizes the work in the field. Chapters are grouped under four specific areas of strategy and management: Mapping a Terrain; Thinking and Acting Strategically; Changing Contexts; and Looking Forward. Within these parts, leading international scholars provide historical overviews of the key themes, address the central approaches which have characterized these themes, critically assess the quality of current theory and knowledge, and set out agendas for future theoretical and empirical development.
