**Romeo and Juliet (Shakespeare Made in Canada)** William Shakespeare, Daniel Fischlin

Canadians have enjoyed a long history of encounters with Shakespeare, from the visual arts to creative new adaptations, from traditional and nontraditional interpretations to distinguished critical scholarship. We have in over two centuries remade Shakespeare in ways that are distinctly Canadian. The series offers a unique vantage on these histories of production and encounter with attention to accessibility and presentation. These editions explore how a given country can inform the interpretation and pedagogy associated with individual plays.

Canadians, or more properly British North Americans from both Upper and Lower Canada, have been interacting with Shakespeare since no less than the 1760s in a tradition that is at once rich and robust, indigenous and international. The Canadian Adaptations of Shakespeare project at the University of Guelph has created a multimedia database of hundreds of adaptations, developed from Guelph's world-class theatre archives and a host of independent sources that reflect on a long tradition-from pre-Confederation times and heading vibrantly into the future-of playing Shakespeare in Canada. These are the first editions of the plays of William Shakespeare to place key insights from the world's best scholarship alongside the specific contexts associated with a dynamic Canadian tradition of productions and adaptations. Specially research images, never printed before, from a range of Canadian productions of Shakespeare will be featured in every play.

In addition to a scholarly edition of the playtext complete with original new annotation, these books will include both short introductions by noted scholars and prefaces by well-known Canadians who have experience with Shakespeare. In addition, each play includes act and scene summaries, *dramatis personae*, quick reference notes on reading Shakespeare, and recommended reading/resources.
