Edmund Spenser (Longman Critical Readers) Andrew Hadfield

This collection represents some of the best recent critical writing on Edmund Spenser, a major Renaissance English poet. The essays cover the whole of Spenser's work, from early literary experiments such as *The Sheperdes Calendar*, to his unfinished crowning work, *The Fairie Queene*. The introduction provides an overview of critical responses to Spenser, setting his work and the debates which it has generated in their perspective contexts: new historicist, post-structural, psychoanalytic and feminist. His study also covers the critical responses of leading British, Irish and American scholars.
