## **The Conscious Universe: The Scientific Truth of Psychic Phenomena** Dean, PhD Radin

Recently profiled in the *New York Times* Magazine. Dean Radin is perhaps the most respected parapsychology authority in the country. An articulate, engaging communicator, Radin wields impeccable credentials, a healthy skepticism and a meticulous scientific method to put "psi" phenomena like telepathy, clairvoyance, precognition and mind-over-matter abilities to the hard test of science. His unprecedented manifesto makes a startlingly persuasive case for the truth of psychic phenomena -- and places us on the cusp of what may well be the next great paradigm shift.

Uniting the latest in high-tech experiments, including irrefutable data from his own groundbreaking research, with teachings of mystics and theories of quantum physics, Radin explores myriad phenomena: from ESP to ghosts to psychokinesis. Radin reveals the remarkable extent to which psi is already tacitly acknowledged -- and exploited -- by Fortune 500 corporations and the U.S. government, then analyzes how the inevitable mass acceptance of the mind-matter link will affect social, economic, academic, health and spiritual issues. At once visionary and pragmatic, *The Conscious Universe* recalls the classics *Godel, Escher, Bach* and *The Holographic Universe*, yet transcends mere experiments to offer a bold new vision of the future.
