Law, Interpretation and Reality: Essays in Epistemology, Hermeneutics and Jurisprudence (Law and Philosophy Library)

PATRICK NERHOT Since the two operations overlap each other so much, speaking about fact and interpretation in legal science separately would undoubtedly be highly artificial. To speak about fact in law already brings in the operation we call interpretation. EquaHy, to speak about interpretation is to deal with the method of identifying reality and therefore, in large part, to enter the area of the question of fact. By way of example, Bernard Jackson's text, which we have placed in section 11 of the first part of this volume, could no doubt just as well have found a home in section I. This work is aimed at analyzing this interpretation of the operation of identifying fact on the one hand and identifying the meaning of a text on the other. All philosophies of law recognize themselves in the analysis they propose for this interpretation, and we too shall seek in this volume to furnish a few elements of use for this analysis. We wish however to make it clear that our endeavour is addressed not only to legal philosophers: the nature of the interpretive act in legal science is a matter of interest to the legal practitioner too. He will find in these pages, we believe, elements that will serve him in reflection on his daily work.
