**The Garland Handbook of Latin American Music** Dale Olsen, Daniel Sheehy

*The Garland Handbook of Latin American Music* is comprised of essays from *The Garland Encyclopedia of World Music: Volume 2, South America, Mexico, Central America, and the Caribbean*, (1998). Revised and updated, the essays offer detailed, regional studies of the different musical cultures of Latin America and examine the ways in which music helps to define the identity of this particular area.

Part One provides an in-depth introduction to the area of Latin America and describes the history, geography, demography, and cultural settings of the regions that comprise Latin America. It also explores the many ways to research Latin American music, including archaeology, iconography, mythology, history, ethnography, and practice. Part Two focuses on issues and processes, such as history, politics, geography, and immigration, which are responsible for the similarities and the differences of each region's uniqueness and individuality. Part Three focuses on the different regions, countries, and cultures of Caribbean Latin America, Middle Latin America, and South America with selected regional case studies.

The second edition has been expanded to cover Haiti, Panama, several more Amerindian musical cultures, and Afro-Peru. *Questions for Critical Thinking* at the end of each major section guide focus attention on what musical and cultural issues arise when one studies the music of Latin America -- issues that might not occur in the study of other musics of the world. Two audio compact discs offer musical examples of some of the music of Latin America.
