Linear Algebra Done Right (Undergraduate Texts in Mathematics) Sheldon Axler

This best-selling textbook for a second course in linear algebra is aimed at undergrad math majors and graduate students. The novel approach taken here banishes determinants to the end of the book. The text focuses on the central goal of linear algebra: understanding the structure of linear operators on finite-dimensional vector spaces. The author has taken unusual care to motivate concepts and to simplify proofs. A variety of interesting exercises in each chapter helps students understand and manipulate the objects of linear algebra.

The third edition contains major improvements and revisions throughout the book. More than 300 new exercises have been added since the previous edition. Many new examples have been added to illustrate the key ideas of linear algebra. New topics covered in the book include product spaces, quotient spaces, and dual spaces. Beautiful new formatting creates pages with an unusually pleasant appearance in both print and electronic versions.

No prerequisites are assumed other than the usual demand for suitable mathematical maturity. Thus the text starts by discussing vector spaces, linear independence, span, basis, and dimension. The book then deals with linear maps, eigenvalues, and eigenvectors. Inner-product spaces are introduced, leading to the finite-dimensional spectral theorem and its consequences. Generalized eigenvectors are then used to provide insight into the structure of a linear operator.

From reader reviews:

Peter Tesch:

This Linear Algebra Done Right (Undergraduate Texts in Mathematics) book is just not ordinary book, you have after that it the world is in your hands. The benefit you receive by reading this book is definitely information inside this publication incredible fresh, you will get details which is getting deeper you actually read a lot of information you will get. This specific Linear Algebra Done Right (Undergraduate Texts in Mathematics) without we understand teach the one who studying it become critical in imagining and analyzing. Don't be worry Linear Algebra Done Right (Undergraduate Texts in Mathematics) can bring any time you are and not make your handbag space or bookshelves' become full because you can have it within your lovely laptop even mobile phone. This Linear Algebra Done Right (Undergraduate Texts in Mathematics) having very good arrangement in word and layout, so you will not experience uninterested in reading.

Tony You:

This Linear Algebra Done Right (Undergraduate Texts in Mathematics) is great book for you because the content which is full of information for you who always deal with world and still have to make decision every minute. This specific book reveal it info accurately using great plan word or we can say no rambling sentences in it. So if you are read the item hurriedly you can have whole data in it. Doesn't mean it only will give you straight forward sentences but difficult core information with wonderful delivering sentences. Having Linear Algebra Done Right (Undergraduate Texts in Mathematics) in your hand like getting the world in your arm, info in it is not ridiculous a single. We can say that no reserve that offer you world within ten or fifteen second right but this reserve already do that. So , this is good reading book. Hello Mr. and Mrs. active do you still doubt in which?

Claire Davis:

The book untitled Linear Algebra Done Right (Undergraduate Texts in Mathematics) contain a lot of information on the idea. The writer explains the woman idea with easy approach. The language is very clear to see all the people, so do not worry, you can easy to read this. The book was published by famous author. The author gives you in the new time of literary works.
