El código Maya / The Codex (Spanish Edition) Douglas Preston

Maxwell Broadbent ha sido un personaje difícil toda su vida. Inició su fortuna saqueando tumbas y ha acabado poseyendo una de las colecciones particulares de obras de arte más exquisitas (y caras) del mundo. Ahora le han diagnosticado un cáncer irreversible, y pide a sus tres hijos que vayan a verle. Cuando Tom, Vernon y Philip llegan a la mansión de su padre en Nuevo México, se encuentran con la casa vacía y la colección desaparecida. Solo queda una cinta de vídeo. Con el último desafío del anciano. Ha decidido ir a morir y ser enterrado en una tumba, cuyo paradero solo conoce él. Y se ha llevado consigo lo que más amaba: su colección de arte, valorada en quinientos millones de dólares, que sus hijos esperaban con tanta ansia heredar... para repartírsela y venderla. Maxwell les lanza un reto: si la quieren, tendrán que ir a buscarla. Se la quedará quien encuentre la tumba. Pero les advierte: será complicado, y peligroso, y solo lo conseguirán si colaboran entre ellos. Los tres hermanos no pueden ser más diferentes: Philip, el mayor, es un intelectual. Vernon se ha pasado la vida metido en sectas buscando la luz. Tom, el menor y el más juicioso de los tres, se hizo veterinario y se alejó de la familia. Y aunque al principio solo Philip parece interesado en buscar la tumba (tiene una pista: las ruinas de una ciudad maya en la selva de Honduras), pronto le seguirán en el viaje Vernon (acompañado del codicioso Maestro de la secta de turno) y Tom, empujado por una antropóloga que quiere recuperar una de las piezas más valiosas de la colección: un código maya, un tratado medicinal cuya traducción pondría al alcance de la humanidad todo el saber perdido de aquella cultura antigua.

Obviamente, no lo van a tener fácil: además de los mil y un peligros de la selva, el interés de los directivos de una multinacional farmacéutica por conseguir a cualquier precio el código maya pondrá en peligro sus vidas.
