Excerpt from Field Book of Insects: With Special Reference to Those of Northeastern United States, Aiming to Answer Common Questions

I am glad to have this opportunity of thanking those who have kindly responded to the request made on page 523 for criticisms and suggestions. As far as seemed practicable, they have been acted upon in this edition. All typographical errors that have been noticed in the body of the book are now corrected and new matter has been put in the appendix. In addition to short notes on a variety of subjects, there is an extensive key for determining the order to which an insect, adult or immature, belongs, a key to the families of beetles, another to wild bees, and notes to help in the identification of caterpillars.

The Field Book of Insects was intended for individuals, but so many teachers have used it in their classes that it may not be amiss to indicate a pedagogical point of view that influenced the choice of material. Certain families or groups of species were selected in each of the important orders for more detailed attention on the theory that it is well to "know a little about many things and much about a few."

About the Publisher

Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com)

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
