ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

This practical, user-friendly new edition bridges the gap between theory and practice by examining measurement and evaluation techniques for a variety of activities—from coaching and teaching to adult education and community programs. In ***Measurement and Evaluation in Physical Education and Exercise, Seventh Edition***, you get the skills you need to assess, evaluate, and develop more effective physical education or activity programs. Real-life, practical examples illustrate the measurement and evaluation models to help you grasp important concepts, while showing how to integrate measurement and evaluation techniques into program design and development.

- **Measurement and evaluation made real:** See why and how measurement and evaluation will be integral to your activity-based professional lives.
- **The most current information and the latest research** have been incorporated throughout the text.
- **Essential statistical techniques for measurement and evaluation** are presented in a user-friendly, practical approach that encourages and reinforces learning.
