## Advanced Cellular Network Planning and Optimisation: 2G/2.5G/3G...Evolution to 4G

A highly practical guide rooted in theory to include the necessary background for taking the reader through the planning, implementation and management stages for each type of cellular network.

Present day cellular networks are a mixture of the technologies like GSM, EGPRS and WCDMA. They even contain features of the technologies that will lead us to the fourth generation networks. Designing and optimising these complex networks requires much deeper understanding. *Advanced Cellular Network Planning and Optimisation* presents radio, transmission and core network planning and optimisation aspects for GSM, EGPRS and WCDMA networks with focus on practical aspects of the field. Experts from each of the domains have brought their experiences under one book making it an essential read for design practitioners, experts, scientists and students working in the cellular industry.

### Key Highlights

- Focus on radio, transmission and core network planning and optimisation
- Covers GSM, EGPRS, WCDMA network planning & optimisation
- Gives an introduction to the networks/technologies beyond WCDMA, and explores its current status and future potential
- Examines the full range of potential scenarios and problems faced by those who design cellular networks and provides advice and solutions all backed up with real-world examples

This text will serve as a handbook to anyone engaged in the design, deployment, performance and business of Cellular Networks.

"Efficient planning and optimization of mobile networks are key to guarantee superior quality of service and user experience. They also form the essential foundation for the success of future technology development, making this book a valuable read on the road towards 4G."

—Tero Ojanperä, Chief Technology Officer, Nokia Networks

### **From reader reviews:**

#### **Carmen Fields:**

In this 21st hundred years, people become competitive in each way. By being competitive right now, people have do something to make them survives, being in the middle of often the crowded place and notice simply by surrounding. One thing that often many people have underestimated this for a while is reading. Yeah, by reading a book your ability to survive boost then having chance to remain than other is high. For yourself who want to start reading some sort of book, we give you this kind of Advanced Cellular Network Planning and Optimisation: 2G/2.5G/3G...Evolution to 4G book as basic and daily reading reserve. Why, because this book is greater than just a book.

#### **Cynthia Sharma:**

Do you have something that you like such as book? The publication lovers usually prefer to pick book like comic, short story and the biggest the first is novel. Now, why not trying Advanced Cellular Network Planning and Optimisation: 2G/2.5G/3G...Evolution to 4G that give your entertainment preference will be satisfied by reading this book. Reading behavior all over the world can be said as the means for people to know world a great deal better then how they react toward the world. It can't be said constantly that reading addiction only for the geeky individual but for all of you who wants to end up being success person. So , for every you who want to start studying as your good habit, it is possible to pick Advanced Cellular Network Planning and Optimisation: 2G/2.5G/3G...Evolution to 4G become your starter.

#### **Edward Crosley:**

This Advanced Cellular Network Planning and Optimisation: 2G/2.5G/3G...Evolution to 4G is great guide for you because the content that is certainly full of information for you who always deal with world and also have to make decision every minute. This book reveal it information accurately using great plan word or we can point out no rambling sentences in it. So if you are read it hurriedly you can have whole details in it. Doesn't mean it only will give you straight forward sentences but difficult core information with attractive delivering sentences. Having Advanced Cellular Network Planning and Optimisation: 2G/2.5G/3G...Evolution to 4G in your hand like keeping the world in your arm, data in it is not ridiculous 1. We can say that no book that offer you world with ten or fifteen minute right but this book already do that. So , this really is good reading book. Heya Mr. and Mrs. busy do you still doubt in which?

#### **Rex Pelkey:**

A lot of publication has printed but it differs. You can get it by world wide web on social media. You can choose the most beneficial book for you, science, comedian, novel, or whatever by means of searching from it. It is identified as of book Advanced Cellular Network Planning and Optimisation: 2G/2.5G/3G...Evolution to 4G. You can contribute your knowledge by it. Without making the printed book, it could add your knowledge and make you actually happier to read. It is most crucial that, you must aware about reserve. It

can bring you from one destination to other place.
