Is there an alternative to the corporate globalization and militarism that is ravaging our planet? These classic works by ERNESTO CHE GUEVARA, including his famous essay "Socialism and Man in Cuba," present a revolutionary view of a different world in which human solidarity and understanding replace imperialist aggression and exploitation. Che Guevara was born in Argentina and traveled throughout Latin America before joining the Cuban revolutionary movement that toppled the Batista dictatorship in 1959. Although best known as a guerrilla fighter, this book shows Che as a profound thinker with a radical world view that still strikes a chord with young rebels in every country today. "The powerful of the earth should take head: deep inside that T-shirt where we have tried to trap him, the eyes of Che Guevara are still burning with impatience." - Ariel Dorfman
