In every word of this book you will find this principle: Imagination Must Be Used To Create Reality, Not To Escape From It! This guide is a must for you, if you take action:

1. You will be in peace with yourself and others. You won't blame somebody for your bad luck because you will be able to see and feel in the real world your true love.
2. You will love yourself more and your life will fit anymore to a normal routine but to a crazy one.
3. You will discover that love isn't an exception of the golden rule: What you give you receive!
4. You won't search for your true love in the usual mode which is a failure. But instead you will use universe as a search machine and your imagination created by a mixed feeling-thought as words you will type in this machine which will bring in front of your eyes your true love!
5. Get rid of the stupid paradox: Love makes you suffer... See the truth that love only makes you happy. It's your mental programming from outside that makes you suffer. Let's fix it...
6. Break all boundaries that surround you.
7. Discover the power of silence and feel the magic of life which uses you to accomplish your dreams.
8. If you already have a family and are having problems with your husband, you will discover why it is happening to you and the 100% effective cure.
9. You will also understand that taking action doesn't mean to run or move around, it means to direct your thought to your fulfilled desire.
