Research in Education (10th Edition) John W. Best, James V. Kahn

This text provides comprehensive coverage of research methods and statistics in a readable and student-friendly format. A wide variety of methodologies including descriptive, experimental and quasi-experimental research, historical studies, qualitative methods, and single subject designs are covered. A complete range of research tools as well as descriptive and inferential statistics are also included, making this text the definitive resource for introductory research courses. *Research in Education* is divided into three parts: Part I, “Introduction to Educational Research,” focuses on the purpose of research, hypotheses, ethics in research, developing a research problem, and writing proposals and reports; Part II, “Research Methods,” is unique in that it integrates chapters on qualitative research methods, historical research and single-subject methods with the more typical chapters on experimental methods; and Part III, “Data Analysis,” includes both descriptive and inferential statistics, as well as examples of analyses using a computer.
