A reprint of the 1974 BLM Supplement with a new index and cross references to the 1973 and 2009 editions of the Manual of Surveying Instructions for the Survey of the Public Lands of the United States. This is a useful tool in relating how various issues in retracement and restoration of the Public Land boundaries have been treated in each of these official BLM publications. This was devised as a study aid for students, and should be of particular benefit to persons who are new to the concepts of the public lands survey system.
