The Paul de Man Notebooks (Frontiers of Theory) Paul de Man

This anthology collects texts and papers from the Paul de Man archive, including essays on art, translations, critical fragments, research plans, interviews, and reports on the state of comparative literature. These texts offer a fascinating insight into the work of one of the twentieth century's most important literary theorists. The volume engages with Paul de Man's institutional life, gathering together pedagogical and critical material to investigate his profound influence on the American academy and theory today. It also contains a number of substantial, previously unpublished and untranslated texts by de Man from the span of his writing career. As a new collection of primary sources this volume further stimulates the growing reappraisal of de Man's work.
