**Laboratory Manual for Biology : Concepts and Applications** James W. Perry, David Morton

This four-color lab manual contains 38 lab exercises and is designed for both introductory majors and non-majors courses. Most of the exercises can be completed within two hours and require minimal input from the instructor. To provide flexibility, instructors can vary the length of most exercises, many of which are divided into several parts, by deleting portions of the procedure without sacrificing the overall purpose of the experiment.
