J. Whitfield Gibbons

Their Blood Runs Cold: Adventures with Reptiles and Amphibians J. Whitfield Gibbons

Their Blood Runs Cold is entertaining, informative reading that not only enhances our understanding of a unique group of animals, but also provides genuine insight into the mind and character of a research scientist.

Whit Gibbons possesses the rare talent of conveying the challenge and excitement of scientific inquiry. A research ecologist who specializes in the study of reptiles and amphibians, he gives accounts of work in the field that are as readable as good short stories.

From the dangers of being chased by an angry rattlesnake to the exhilaration of discovering a previously undescribed species, Gibbons brings to life the everyday experiences of the herpetologist as he chases down lizards, turtles, snakes, alligators, salamanders, and frogs in their natural habitats. With essays like "Turtles May Be Slow but They're 200 Million Years Ahead of Us" and "How to Catch an Alligator in One Uneasy Lesson," *Their Blood Runs Cold* both entertains and informs.

The thirtieth anniversary edition of *Their Blood Runs Cold* features a new prologue and epilogue, additions that address changes in the taxonomy and study of reptiles and amphibians that have occurred since the publication of the original edition and offer suggestions for further reading that highlight the explosion of interest in the topic.

From reader reviews:

Errol Sawyer:

In other case, little individuals like to read book Their Blood Runs Cold: Adventures with Reptiles and Amphibians. You can choose the best book if you appreciate reading a book. So long as we know about how is important some sort of book Their Blood Runs Cold: Adventures with Reptiles and Amphibians. You can add knowledge and of course you can around the world by the book. Absolutely right, since from book you can understand everything! From your country until eventually foreign or abroad you will end up known. About simple issue until wonderful thing you are able to know that. In this era, we could open a book or maybe searching by internet system. It is called e-book. You can utilize it when you feel weary to go to the library. Let's learn.

Michael Walsh:

The book Their Blood Runs Cold: Adventures with Reptiles and Amphibians will bring you to definitely the new experience of reading the book. The author style to explain the idea is very unique. If you try to find new book to study, this book very appropriate to you. The book Their Blood Runs Cold: Adventures with Reptiles and Amphibians is much recommended to you to read. You can also get the e-book from official web site, so you can easier to read the book.

Rick Braden:

Many people spending their time period by playing outside having friends, fun activity with family or just watching TV the entire day. You can have new activity to shell out your whole day by looking at a book. Ugh, do you consider reading a book can actually hard because you have to take the book everywhere? It alright you can have the e-book, taking everywhere you want in your Cell phone. Like Their Blood Runs Cold: Adventures with Reptiles and Amphibians which is keeping the e-book version. So , try out this book? Let's see.

Timothy Montgomery:

As a college student exactly feel bored to help reading. If their teacher requested them to go to the library or to make summary for some publication, they are complained. Just small students that has reading's heart or real their leisure activity. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading very seriously. Any students feel that studying is not important, boring as well as can't see colorful images on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this Their Blood Runs Cold: Adventures with Reptiles and Amphibians can make you feel more interested to read.
